Icebreaker

2 minutes

Question:

Taking a virtual class gives you the flexibility to attend from any stable location. What are some of your favorite spots to get some work done away from home?

Answer:

Share your answer in the Zoom chat below. What kinds of pets do you have if any? If you don't have any, share what type you would like to have, if any.

Your Feedback

Glow

- + Tree questions were challenging but good practice.
- + Recursive explanation stuck for many

Grow

- Need a bit more practice on Trees & Recursion
- Tree traversal lecture could be more interactive!

SKIP THE PREWORK

Your Fall 2026 seat is open

You're on track in your current course, so your seat at the next level up is open — no prework.

Fast-track enrollment is open for Fall 2026 — take advantage of it this term.

Your seat may be contingent on passing, or completing, your current course.

Assignment Submissions

Fall 2026 — CodePath, your future and you. We'll see you there.

35 minutes

Peer Mock Interviews

Today's Mock Interviews

* Mock Interview Packet

* One student will act as the interviewer.

- Guides the process by asking questions, clarifying requirements, and prompting the interviewee to think about edge cases or optimization.
- Observes and takes notes for feedback but does not solve the problem.

* The other student will act as the interviewee.

- Solves the problem while thinking aloud and applying the UMPIRE steps.
- Communicates their thought process clearly to the interviewer.

Peer Feedback

When there's ~5 minutes left, the interviewer should provide feedback:

- * One strength
- * One area for improvement

Try It!

20 minutes

Problem #1 - [Find the Difference](#)

You are given two strings `s` and `t`.

String `t` is generated by randomly shuffling string `s` and then adding one more letter at a random position.

Return the letter that was added to `t`.

[Interviewer Guide](#)

Try It!

20 minutes

Problem #2 - [Ransom Note](#)

Given two strings **ransomNote** and **magazine**, return **True** if **ransomNote** can be constructed by using the letters from **magazine** and **False** otherwise.

Each letter in **magazine** can only be used once in **ransomNote**.

Discussion

3 minutes

In the chat . . .

How did we do? What did we do well? What are things we need to work on to improve?

Break Time!

Take 5 mins to step away from the computer. Feel free to turn off your camera and return promptly after 5 mins.

50 minutes

Collaborative Problem Solving

Breakout Rooms

50 minutes

1. 🏃 Navigate to your breakout room.
2. 🙌 Introduce yourselves!
3. 🧑💻 Work on the problems for your selected unit.

10 minutes

Wrap Up

One Good Thing

Let's reflect on today's session. Maybe you got a question answered, overcame a specific coding challenge, or learned how to do something completely new!

In the chat, share at least one good thing you've learned or experienced during the session today.

Let's celebrate together!

End of Course Survey Time!

- Check your email for the link

Final Reminders

- ☐ Finish the problem sets for additional practice
- ☐ Take the weekly HackerRank assessment by Sunday @ midnight
- ☐ Visit a **Study Hall Session** to deepen your understanding, work through challenges, and connect with course material alongside your peers!
