Question:

We did it! Now that we have completed our semester, what will you guys be doing to celebrate before work/school begins again?

Answer:

Share your answer in the Zoom chat below. What kinds of pets do you have if any? If you don't have any, share what type you would like to have, if any.

Announcements

* Last class :'(

- Let's finish strong and make sure any remaining questions are closed.
- * Celebratory class, today we will take a breather and look back at our progress before our last breakout room session.

Course Progress

The following is a summary of your current status for this course:

Fall 2026: Prework Party! 🎉

There's still time to submit your prework for CodePath Fall 2026 courses. You're invited to a Prework Submission Party - receive prework support and a gift card!

- Join us virtually for our Prework Submission Party on Thursday, August 20 from 2–3 PM PT / 5–6 PM ET. Co-work on your prework with our ambassadors and other students.
- Come unblock any questions you may have and maybe enjoy a snack on us! 🍪
- Get prework support at anytime via our prework support channel on Slack at prework-codepath.slack.com

Note: Upon completion (and passing) of your current course, this Fall you'll be automatically qualified for the next course in your pathway, with no need to complete the prework! You're still encouraged to attend if you've applied to other courses.

Celebrate!

Looking back through what we've completed

- * Estimated **3,500+** Breakout Room Problems solved
- * Almost **4,000** session feedback responses
- * Some students met up to ~**35+** new classmates throughout the semester
- * We completed ~**500+** mock interviews
- * We completed **4,000+** HackerRank assignments

Looking back through your feedback

- * “Breakout room” mentioned **747** times
- * “Meeting new people” mentioned **386** times
- * “Mock interviews” mentioned **128** times
- * Initial concerns **dropped by 50%** by week 5
 - Week (3-4) was the lowest confidence timeframe as we adjusted
 - Weeks (5-8) showed that students are more confident despite harder topics!
- * Students mentioned each other by name **4,200+** times!
- * **534** Tech Fellow & ops team (Kenneth) mentions !!
 - 18 TFs mentioned by name in our section, shoutouts:
 - **Neel, Justin, Leanna, Angela, Eddie, La’Joir**

Looking back at what we've learned

Over these last 10 weeks, we have covered so many new topics. Regardless of your background, you got to improve on:

- * Big-O
- * Dictionaries
- * String operations / string manipulation
- * Two pointers
- * OOP
- * linked lists techniques (temporary head, two pointers)
- * Binary search on sorted lists
- * Recursion
- * Binary trees vs. Binary search trees
- * Tree traversal techniques
- * Mock interviews / problem-solving strategy (UMPIRE)

Looking back . . . KAHOOT 🤖

The purpose of the course isn't to memorize everything right away, but just to make continuous progress. Let's do a quick [Kahoot](#) game to see how well we can recall the information! The **winners** of the Kahoot will get:

1st place 🏆:

- Resume review, LinkedIn Review + endorsement and **1:1 Mock Interview with me**

2nd place 🥈:

- Resume review and **LinkedIn Review + endorsement**

3rd Place 🥉:

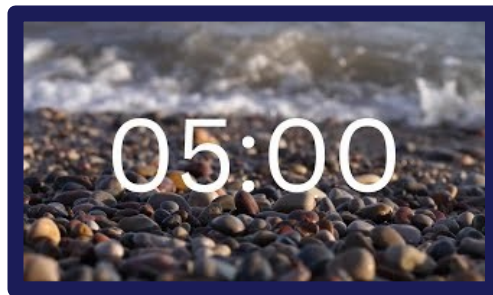

- **Resume review**

Let's take 5 min to write down our thoughts . . .

Share something you are proud of from the course, such as a skill you developed or a challenge you overcame.

Then add to the [Padlet](#)! This can be:

- * Highlights
- * Shout-outs
- * Favorite memories
- * Inspirational messages or quotes
- * General thoughts or feelings
- * Feel free to include a gif/pic!

Break Time!
