Welcome! 🖐️

Meet the Instructor

Cory Brooks

ex-Amazon/AWS SWE, ex-Wall Street SWE

NLP, AI, Computational Finance, Music Production,

Education:

- Georgia Tech
 - B.S. Computer Science
 - Concentration in AI & Human-Computer Interaction

"You'll never know if you don't try."

Turn on your cameras!

Icebreaker

5 minutes

Question:

What got you into technology / interested in taking this course?

Answer:

In the Zoom chat, please paste the city! Add an emoji react to the ones that you would also like (or share recommendations if you've been!)

 **Trinity DiBartolo TIP101 S3** Saturday at 12:44 PM
If I have to leave the Zoom to go to the restroom or take care of something, will I be counted as absent or tardy for the rest of the meeting if I had already joined the meeting when it started?

 **Edrian Molina (CodePath Ops Coordinator)-TIP101-S3**
Saturday at 12:47 PM
Hi, that should be fine as long as you've stayed for more than 90 minutes of the whole session.

Try It!

2 minutes

Let's practice!

I will post a message in the `#dts-su26-tip101-program-help` channel.

Reply to that message by **replying in the thread**.

Class Structure

- * 2 sessions per week – **Tuesdays** and **Thursdays**
 - 45 min Guided Exploration
 - 1 hour Collaborative Problem Solving
 - TFM (Primarily Neel is substituting for today) will usually take over in the 2nd half of class, , after we complete our instructor slides.
- * Optional Study Halls each week
 - See the Course Portal -> Schedule tab for more!
- * Weekly HackerRank assessment due **Sundays at 11:59pm PST**

Adaptive Pacing

- * During the Collaborative Problem Solving time, you will be in breakout rooms of 3 to 6 students.
- * Skip units by passing the HackerRank assessment.
 - If you look at the Collaborative Problem Solving questions and you can self-practice, take the assessment early.
- * Keep working on a unit until you pass the HackerRank assessment (up to 2 attempts).

Benefits for Course Completion

All students who meet the **attendance requirements** and **pass 6 HackerRank assessments** will be considered a CodePath alumni and:

- * Receive a (digital) CodePath certificate of completion.
- * Gain access to CodePath alumni networks.

Policies: Attendance

- * Attendance at all sessions is mandatory.
- * You are allowed up to **3 absences** throughout the entire program.
 - You do *not* need to submit a request to use these absences.
- * Students who are absent must still submit the coursework for a unit by the posted deadline.

How do I get the most out of this course?

Engage in class ***fully***! That means . . .

- * Taking notes
- * Speaking up
- * Using the tools and strategies

How do I get the most out of this course?

Practice! Practice! Practice!

How do I get the most out of this course?

CodePath AI Tutor

Build your skills with support! Take the following steps:

- * Install the AI Tutor on chrome: <http://go.codepath.org/tiptutor>
- * Solve 2 LeetCode problems on 2 different days

Once you've taken the steps above, unlock a new opportunity!

- * +1 absence back for completion(one-time offer)

[Take a look at the FAQ if you have any questions](#)

How do I get the most out of this course?

Aim for one passed
unit per week

Pass = 6 Units
minimum

How do I get the most out of this course?

Share gratitude and shoutouts regularly

Be Fully Present

- * In the session for **at least 90 minutes**
- * Fully engaging **visually**, **verbally**, and **technically** without reminders, requests, or interruptions

Discussion

5 minutes

What do you think it means to be fully engaging **visually**, **verbally**, and **technically** without reminders, requests, or interruptions? What do you think this looks and sounds like?

Having Trouble?

I need help or have questions about Slack, the course structure, etc.

Attend a weekly Fix-It Garage Session.

I need help or have questions about Python or understanding a problem.

Attend a weekly Study Hall.

Instructor Demo

5 minutes

Let's check out the
Course Portal!

The screenshot shows the CodePath Courses portal for the TIP101 course. The header includes navigation links for Courses, Cohorts, Locations, Roles, and Organizer Links, along with a user profile for Jamila Cocchiola. The course title is "TIP101 | Intro to Technical Interview Prep" with a subtitle "Intro to Technical Interview Prep Fall 2024 (@ Observer access)" and a personal member ID of 68369. A sidebar on the left lists various sections: Getting Started, VSCode Setup, Schedule, AI Usage, and a list of units from Unit 1 to Unit 8, with Unit 1 highlighted. The main content area for Unit 1, titled "Unit 1: CodePath Welcome", includes a reminder to fill out a session survey and a section for "Unit Goals". The goals are listed as follows:

- ☐ Familiar with the format and goals of the course
- ☐ Developing the skill of using UPI method to solving coding problems
- ☐ Able to write, use, and modify variables, functions, and print statements
- ☐ Able to use conditional logic (if statements)
- ☐ Able to work with lists (accessing, iterating, etc)

Readiness Prep Form

Break Time!

Take 5 mins to step away from the computer. Feel free to turn off your camera and return promptly after 5 mins.

60 minutes

Collaborative Problem Solving

Instructor Demo

5 minutes

What does **Collaborative Problem Solving** look like?

Let's observe! 👁👁

Breakout Rooms

55 minutes

1. 🏃 Navigate to your breakout room.
2. 🙌 Introduce yourselves!
3. 🧑💻 Work on the problems for your selected unit.

10 minutes

Wrap Up

One Good Thing

Let's reflect on today's session. Maybe you got a question answered, overcame a specific coding challenge, or learned how to do something completely new!

In the chat, share at least one good thing you've learned or experienced during the session today.

Let's celebrate together!

Session Survey Time!

Final Reminders

- ☐ Finish the problem sets for additional practice
- ☐ Take the weekly HackerRank assessment by Sunday @ midnight
- ☐ Join a **Fix-it-Garage Session** to untangle technical hiccups
- ☐ Visit a **Study Hall Session** to deepen your understanding, work through challenges, and connect with course material alongside your peers!
